

# PATIENT DATA INTEGRATION

*Connecting Healthcare Organizations,  
Patients and DME Providers*

# Cloud Based DME Management for Skilled Nursing and Hospice

Synapse PDI created proprietary technology with all forms of the long-term care market in mind. Integrating with our platform will give you increased control over the DME ordering process and create operational efficiency via cost and utilization reports.

Our software will quickly become an extension of your operations. We will create a customized implementation plan that fits the needs, speed and goals of your group. Our dedicated Implementation Specialists will lead you through the process of integrating your systems and teams with the Synapse PDI software. Just like your care, we are here to support you 24/7.

## OUR PLATFORM.

### Online Ordering

Order equipment from your office or in the field, with the same patient data available regardless of setting.

### Quality Assurance

Detect service issues and work with our team to proactively implement solutions that enhance service and improve quality.

### Reporting

Real-time cost and push reporting results in greater control over utilization and enhanced visibility across locations.

### One Invoice

One reference for your DME invoices; integrated with push reporting that corrects daily records and reduces end of month reconciliations.

### DME Network

Top tier DME Network to meet the needs and growth of your organization.

### EMR/EHR Integration

Integrate with your EMR to place orders in under a minute; saving you time and eliminating duplicate tasks.

# Dashboard Solutions for the Entire Team

- ✓ Customizable by level within the organization
- ✓ Monthly, quarterly and yearly summaries
- ✓ Make Informed Purchasing Decisions

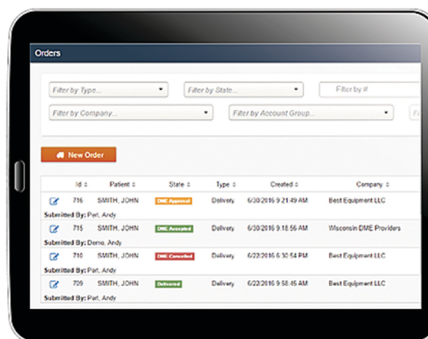

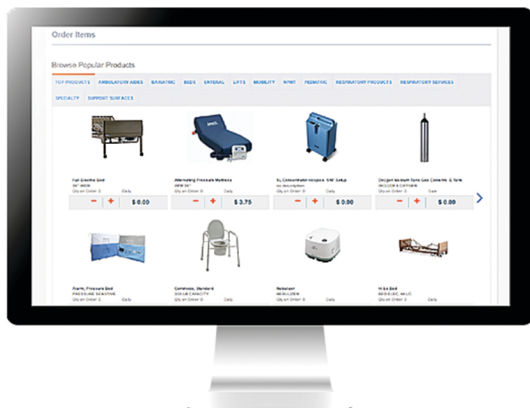

Streamlined data allows you to review utilization and costs via the dashboard. Quickly drill-down into your equipment numbers and use the visibility to make informed decisions with smart controls.

## YOUR TOOLS.

## Online Ordering Made Simple

1

Quickly search patient records, select equipment and place an order from any location or device.

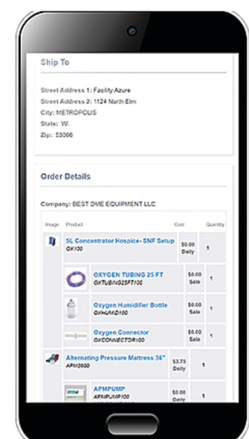

Monitor order real-time via one system with all of your DME providers.

2

3

Email confirmations are sent when deliveries are completed.

www.synapsepdi.com

“With Synapse PDI my team has the freedom to rent items when necessary knowing we have the transparency to track it appropriately and make purchasing decisions when needed.

*Executive Director*

“The invoice platform was easy to learn and similar to other systems I use daily. Reconciliations take a fraction of the time so I am more productive.

*AP / Billing*

“As the purchasing manager for a group of facilities across multiple states, managing rentals has always been a challenge. Synapse pdi has greatly enhanced my ability to keep rentals within budget across each of our locations, while always giving our staff the equipment needed on time, from the best providers available.

*Regional Purchasing Manager*
